Outreach and Engagement

In partnership with [Livewire Warrington](#) the Team have spent February touring the length and breadth of Warrington.

Our Women's Health Roadshow aimed to drop into areas of all areas of Warrington.

Residents were encouraged to fill out our Women's Health Survey and share their views and experiences of Health and Social Care services in Warrington.

Reports

Healthwatch have a legal power to visit health and social care services and see them in action. This power to Enter and View services offers a way for Healthwatch Warrington to meet some of their statutory functions and allows them to identify what is working well with services and where they could be improved

Utilising the surgeries Text system we sent out our impartial and independent survey to patients.

Through this we were able to get feedback from 668 patients of Holes Lane Medical centre and feedback their experiences of the surgery.

This enabled us to make recommendations on what was working well within the surgery and according to patient feedback what could be improved.
